The President,
Town Council,
Muar.

Dear Sir,

Plan Registered No.32/54.

We have the honour to inform you that the construction of the building referred to above has been completed. We hope you will kindly give us a certificate of fitness for occupation.

As regards to the latrine building to be built behind the quarters, we hope you will allow us to defer construction until such time when the necessity arises.

Our reason in submitting this request is by taking into consideration that the latrines for the building and the teachers' quarters are only 80 feet apart, and that the present latrines are not in use after 1.00 P.M. and they are more than ample during the school session. This fact can be verified by the Senior Executive Engineer, Muar.

On the point of sanitation, the Health Officer has expressed upon consultation that he is supporting our application for consideration.

On the point of the conveniency to the teachers in occupation of the quarters, the chief Inspector of Chinese Schools, Johore Bahru, when referred to, has expressed that since the distance of the existing latrines are so close to the quarters, they can serve for both purposes.

We therefore earnestly hope that you will kindly re-consider our application by taking into consideration that this public organisation is exerting full attention in solving the shortage of classrooms for the public and hope to economize wherever possible.

Yours faithfully,

.....
(Goh Chee Hian, J.P.)

Hon. Secretary of Chung Hwa High
School Building Committee.
